

CRUISECONTROL

Alan Wang
Connectria, Inc.

Cruisecontrol

- An automated, continuous build engine
- Open source project
 - <http://cruisecontrol.sourceforgenet.net>
 - Current version: 2.01
- Based on the concept of Continuous Integration
 - <http://www.martinfowler.com/articles/continuousIntegration.html>

Cruisecontrol

- Components

- Build loop

- A daemon process that checks source control, build, generates logs and sends notifications.

- Publisher

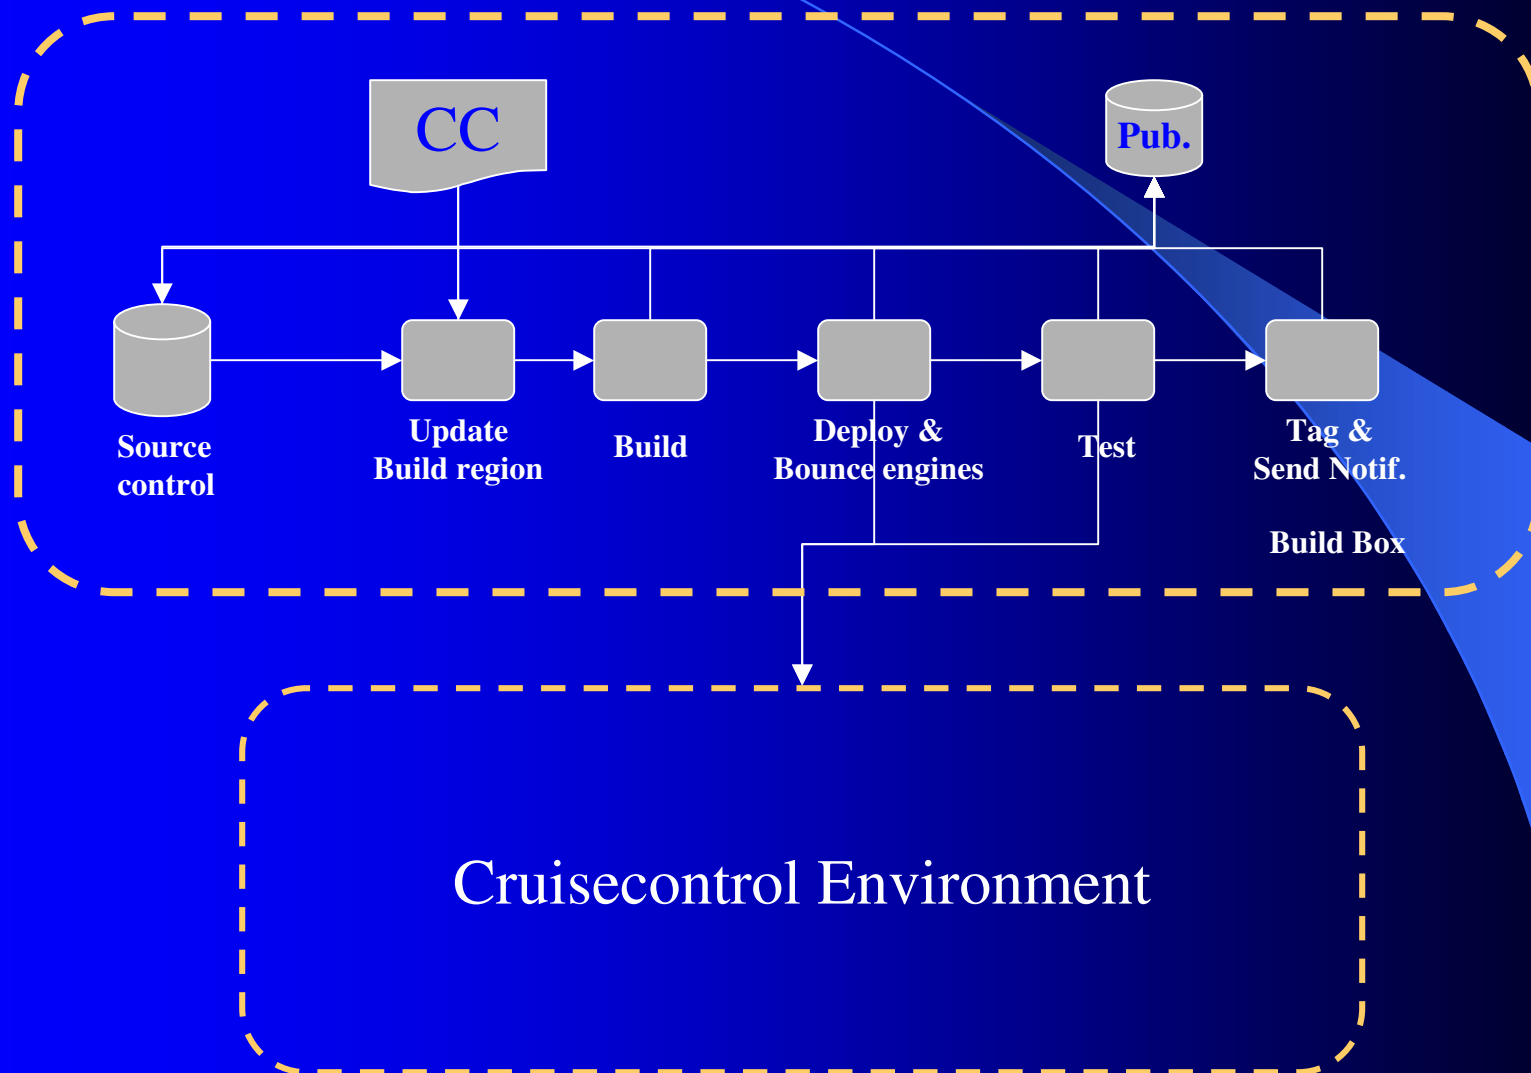

- A central point for accessing build information.

Cruisecontrol

- Build Loop

- A java daemon process that wakes up by schedule.
- A true ant wrapper (v2.x) with its own xml configuration file.
- Pluggable Architecture (v2.x)
- Supports all major source control (CVS, ClearCase, VSS, StartTeam, ...).

Cruisecontrol

Cruisecontrol

- Publisher
 - JSP page in a servlet engine.
